Professional Summary

Motivated and detail-oriented Computer Science graduate with hands-on experience in Java development and full-stack application development. Strong foundation in Core Java, Object-Oriented Programming, Collections, Exception Handling, JDBC, SQL, and Spring Boot, with practical knowledge of ReactJS, HTML, CSS, JavaScript, and MySQL. Gained industry exposure through a Java internship and hands-on full-stack training, with experience in backend development, REST APIs, database operations, debugging, and Git/GitHub. Seeking an entry-level Java or Java Full Stack Developer role to contribute to scalable applications while continuously strengthening technical expertise.

Technical Skills

Languages: Core Java, Advanced Java
Frontend: React.js, HTML5, CSS3, Bootstrap
Backend: Spring Boot, REST APIs, Node.js
Databases: MongoDB, MySQL
Tools & Developer Tools: Git, GitHub, VS Code, Postman, Linux, GitHub Actions
Core Concepts: Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), JWT Authentication4

Projects

Swift Ride –A Ride Booking System— *Core Java, OOP, Collection Framework, Exception Handling* Jun 2026 – Jul 2026

- Built a **console-based ride booking application** supporting Bike, Auto, and Cab ride types with rider, driver, vehicle, ride management, and **dynamic fare calculation**.
- Applied **OOP principles, ArrayList, custom exception handling, milestone-based offers, payments, and safety/SOS modules** using a modular architecture.

TrendPulse – Real-Time News Aggregation Platform — *React, JavaScript, HTML, CSS, News API* Jan 2026- March 2026

- Built a **React-based real-time news aggregation platform** with category filtering, keyword search, bookmarks, and redirection to official news sources.
- Implemented **News API integration, dark mode, breaking-news ticker, regional language support, and responsive UI**, and deployed the application using **GitHub and Vercel**.

Government Scheme Information System— *Java, Spring Boot, MySQL, HTML, CSS, JavaScript* 2026

- Developing a **full-stack government scheme information system** to search and filter schemes based on **state, category, and eligibility criteria**.
- Implementing **REST APIs, MySQL database integration, scheme management, and responsive web interfaces** using **Java, Spring Boot, and web technologies**.

Experience

Java Full Stack Trainee — Codegnan IT Solutions **Jun 2026– Present**

- Undergoing hands-on training in Java Full Stack Development, focusing on Core Java, Advanced Java, Spring Boot, and Hibernate.
- Gaining practical experience in HTML, CSS, JavaScript, React/Angular, MySQL, and real-world project development.

Internship Experience: Java Intern – EVONSYS INDIA Pvt. Ltd. **January 2026 – May 2026**

- Completed an internship focused on Core Java, Spring Boot, MySQL, and Pega, gaining hands-on experience in backend development and enterprise application fundamentals.
- Applied OOP, Collections, Exception Handling, and JDBC through coding exercises and database operations, with practical exposure to SDLC, debugging, clean coding practices, and Git/GitHub.

Education

Swarnandhra College of Engineering and Technology(SCET) **West Godavari**
Bachelor of Technology in Computer Science and Technology **| CGPA: 8.25 | Aug 2022 -May 2026**

Certifications

- ServiceNow Certified Application Developer (CAD)
- AWS Data Engineering Virtual Internship
- Java Full Stack Development Virtual Internship

Achievements & Activities

- Top 1 – Public Speaking on “Importance of Discipline” (2020)
- Top 2 – Oral Presentation on AI (2024)
