Professional Summary

Computer Science Engineering graduate seeking an entry-level Java Developer position to apply my knowledge of Core Java, OOP, Collections Framework, JDBC, Spring Boot, REST APIs, and MySQL. Eager to develop reliable software applications, solve technical problems, and contribute to real-world projects while continuously strengthening my backend development skills.

Experience

Java Full Stack Trainee | Codegnan IT Solutions| Jun 2026 – Present | Codegnan

- Undergoing hands-on training in Java Full Stack Development, focusing on Core Java, Advanced Java, Spring Boot, and Hibernate.
- Gaining practical experience in HTML, CSS, JavaScript, React/Angular, MySQL, and real-world project development.

Java Intern | EVONSYS INDIA Pvt. Ltd. | Jan 2026 – May 2026

- Completed an internship focused on Core Java, Spring Boot, MySQL, and Pega, gaining hands-on exposure to backend development and enterprise application fundamentals.
- Applied OOP, Collections Framework, exception handling, and JDBC through coding exercises and database operations, with exposure to SDLC, debugging, clean coding practices, and Git/GitHub.

Education

Swarnandhra College of Engineering and Technology (SCET) **West Godavari**

Bachelor of Technology in Computer Science and Technology **| CGPA: 8.25 | 2022 - 2026**

Technical Skills

Programming Languages: Java, SQL, JavaScript
Backend Technologies: Core Java, Advanced Java, JDBC, Servlets, JSP, Hibernate, Spring, Spring Boot, REST APIs
Databases: MySQL, DBMS, RDBMS
Core Concepts: Object-Oriented Programming (OOP), Collections Framework, Exception Handling, Multithreading, Data Structures and Algorithms (DSA)
Frontend Technologies: HTML5, CSS3, Bootstrap, React.js
Developer Tools: Git, GitHub, Eclipse, Visual Studio Code, Postman
Other Technologies: GitHub Actions, SDLC, Debugging

Projects

1. Swift Ride – Ride Booking System | Core Java, OOP, Collections Framework, Exception Handling | GitHub
Jun 2026 – Jul 2026

- Developed a console-based ride-booking application supporting Bike, Auto, and Cab rides with dynamic fare calculation, rider/driver management, payment processing, custom exception handling, and safety/SOS functionality.

2. TrendPulse – Real-Time News Aggregation Platform | React, JavaScript, HTML, CSS, News API | GitHub
Jan 2026 – Mar 2026

- Built a React-based news aggregation platform featuring category filtering, keyword search, bookmarks, and redirection to official news sources.
- Integrated the News API and implemented dark mode, a breaking-news ticker, regional language support, and a responsive UI; deployed the application using GitHub and Vercel.

3. JobTrack – Job Application & Recruitment Management System | MySQL, SQL, DBMS | GitHub
Sep 2026 – Oct 2026

- Designed a normalized relational MySQL database to manage job applications, candidates, companies, and job postings.

4. Government Scheme Information System | Java, Spring Boot, MySQL, HTML, CSS, JavaScript (In Progress)

- Developing a full-stack web application to search and filter government schemes based on state, category, and eligibility criteria.
- Building REST APIs using Spring Boot and integrating MySQL for scheme management, CRUD operations, and search/filter functionality.

5. Portfolio Website | HTML5, CSS3, Bootstrap, JavaScript

- Developed and deployed a responsive personal portfolio website to showcase technical skills, projects, and contact information across devices.
- **Live Demo:** https://hari-satya-sai-portfolio-website.vercel.app/

Certifications

- ServiceNow Certified Application Developer (CAD) --- **ServiceNow | Nov 2025**
- AWS Data Engineering Virtual Internship **--- AICTE and Edu Skills | 2024**
- Java Full Stack Development Virtual Internship --- **AICTE and Edu Skills | 2024**

Achievements & Activities

- Achieved up to 98–100% in Java, SQL, and technical assessments during full-stack development training.
- Secured **8th place** in the training performance ranking.
- **Earned Weekly Warrior and Expert Performer recognition** during technical training.
